## SLSA eLearning

Surf Life Saving Australia (SLSA) has a number of online courses available to support members in completing their SLSA awards in a more flexible manner. Currently online courses are available in the following streams: Aquatic Search and Rescue, Emergency Care, Beach Management and Powercraft. There are also Safety and Wellbeing, Skills Maintenance and Age Managers options available to be completed online.

The online courses available typically cover the theory components and are designed in many cases to be completed in conjunction with a course Learner Guide which you can access from the SLSA Members Area Library. In most cases you will also participate in practical training activities and assessments organised by your surf lifesaving club or SLS state/territory centre to achieve competency in the SLSA award.

An online version of the SLSA eLearning User Guide can be found within the [SLSA IT Helpdesk Online Help Library](#).

If the below state/territory information is incorrect, please contact your [surf life saving club](#) before clicking the below login button to log into the eLearning system.

Our records show that you will be studying in state: **NSW**. If this is incorrect, please contact your organisation of membership.

**Login to eLearning**

## Welcome Damien

LMS Level: Participant

**Welcome to the Surf Life Saving eLearning system.**

To enrol in a course, select 'Training Library' from the top right hand side of the menu. From here all of the modules which are available to you will be visible. Once you have enrolled in a course, you can then access this course from the 'My Training' page on the top right hand side of the menu.

**Important Information about SLSA Courses**

Most courses are best completed using Google Chrome as your web browser. We recommend using the link to check which web browser you are using - [whatbrowser.org](#).

If you are not already using Google Chrome please watch this video on how to download it to your computer by clicking on the Logo below or alternatively [Download Google Chrome here](#).
